#### INDEPENDENT AUDITORS' REPORT

Investment Board
State of Idaho Endowment Funds
Administered by the Endowment
Fund Investment Board
Boise, Idaho

We have audited the accompanying financial statements of the State of Idaho Endowment Funds administered by the Endowment Fund Investment Board (the "EFIB"), as of and for the year ended June 30, 2006, as listed in the table of contents. These financial statements are the responsibility of the management of the EFIB. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of Idaho Endowment Funds administered by the EFIB, as of June 30, 2006, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated August 4, 2006, on our consideration of the EFIB's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures which consisted principally of inquiries of

PEOPLE. PRINCIPLES. POSSIBILITIES.

management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the EFIB's basic financial statements. The accompanying financial information listed as supplemental schedules in the table of contents is presented for the purpose of additional analysis and is not a required part of the basic financial statements of the EFIB. The schedules on pages 27 through 29 have been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole. The schedule on page 30 has not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on it.

# STATE OF IDAHO ENDOWMENT FUNDS ADMINISTERED BY THE ENDOWMENT FUND INVESTMENT BOARD MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2006

The discussion and analysis of the State of Idaho Endowment Fund's (the Fund) financial performance provides a summary of the financial activities of the manager of the Fund, the Endowment Fund Investment Board (the EFIB), for the year ended June 30, 2006. This summary includes a financial summary, an overview of the Fund, the management of the Fund, and the detailed status of the Fund and its components.

#### **FINANCIAL HIGHLIGHTS**

#### Total Fund

- Fund investments increased \$105.0 million, which represents a 12.5% increase from fiscal year 2005.
- Receipts from endowment lands rose to \$68.8 million, a 19.7% increase from fiscal year 2005.
- Distributions to all beneficiaries increased 7.9% in fiscal year 2006 to \$40.3 million from \$37.4 million in fiscal year 2005.
- Total investment return, before fees, was 10.9% in fiscal year 2006, compared to 9.7% in fiscal year 2005 and 16.8% in fiscal year 2004.

<sup>\*</sup>Benchmark consists 56% Russell 3000, 14% MSCI EAFE, & 30% Lehman Aggregate.

#### Public School Permanent Endowment Fund

The Public School Fund, which had been in a cumulative loss position since fiscal year 2001, moved to a cumulative gain position of \$16.5 million at the end of fiscal year 2006 as shown on the schedule of gains and losses on fair value of investments. The State Constitution requires the State to make up any losses in the Public School Permanent Endowment Fund. Idaho Code specifies that these losses, in relation to the market value of the permanent endowment fund calculated as it existed on June 30, 2000, and adjusted cumulatively as of June 30 of each fiscal year thereafter by adding the amount of funds deposited into the permanent endowment fund from and including July 1 of the preceding calendar year through and including the June 30 date of adjustment, must be made up after ten consecutive years of cumulative losses, as measured at fiscal year end.

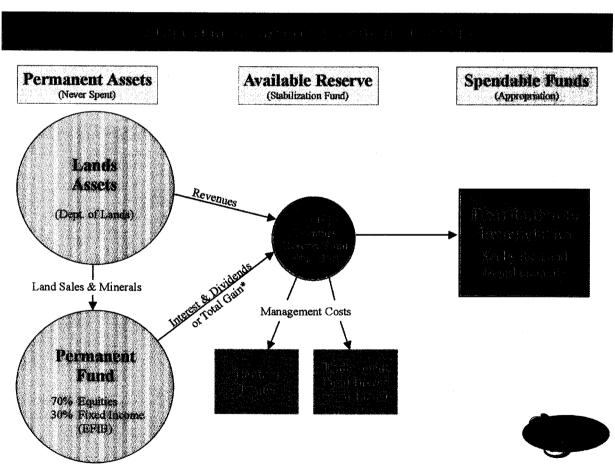

# STATE OF IDAHO ENDOWMENT FUNDS ADMINISTERED BY THE ENDOWMENT FUND INVESTMENT BOARD MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2006

#### PURPOSE OF THE STATE OF IDAHO ENDOWMENT FUNDS

The purpose of the State of Idaho Endowment Funds is to manage and invest the revenues generated from the management and/or sale of endowment land assets of the State.

Monies are generated from lands endowed to, and for the benefit of nine different funds: Public Schools, University of Idaho Agricultural College, Charitable Institutions (Idaho State University, Industrial Training School, State Hospital North, Soldiers' Home, School for Deaf and Blind), Normal School (Idaho State University, Lewis-Clark State College), Penitentiary, University of Idaho School of Science, State Hospital South, University of Idaho and the Capitol Permanent Fund.

The financial assets of all institutions are pooled for investment purposes, and distributions are based on their proportionate share of the total pooled Fund. Assets of the Public Schools endowment account for approximately two-thirds of the total Endowment Funds.

\* When the Permanent Fund, adjusted for inflation, exceeds its June 2000 level, only total gain over inflation will be distributed to Earnings Reserve.

## STATE OF IDAHO ENDOWMENT FUNDS ADMINISTERED BY THE ENDOWMENT FUND INVESTMENT BOARD MANAGEMENT'S DISCUSSION AND ANALYSIS

**JUNE 30, 2006** 

#### ROLE OF THE ENDOWMENT FUND INVESTMENT BOARD

The Endowment Fund Investment Board was created by the 1969 Idaho Legislature and charged with management responsibility of the permanent endowment funds of the state. In addition to managing the State of Idaho Endowment Funds, the EFIB also plays an investment management role for the State Insurance Fund's investments and the Judges' Retirement Fund's investments.

#### USING THIS ANNUAL REPORT

The annual report consists of the independent auditors' report, the financial statements, and the notes to the financial statements, supplemental schedules, and examination of management assertions. These statements are organized to give the reader a complete understanding of the total Endowment Fund, as a whole, along with the specifics of the various beneficiaries.

#### FINANCIAL STATEMENTS

The financial statements and notes to the financial statements are prepared by the Funds' management. They consist of a statement of net assets and a statement of activities with combined totals. The notes to the financial statements are an integral part of the financial statements and provide additional information on the Fund and its operations.

The financial statements and accompanying footnotes reflect all of the assets and liabilities of the Fund using accrual basis accounting. Under accrual accounting, all the current year's revenues and expenses are taken into account regardless of when received or paid. The financial statements report the Fund's net assets, the changes in investments, and the changes in cash balances. Supplemental schedules are provided of detailed expenditures, gains and (losses) on fair market value of investments and, weighted return analysis of the money managers.

#### Total Endowment Funds

The total Endowment Fund is a combination of the Public School, Pooled and Capitol Permanent Funds. For Public School and Pooled Funds, the distributions are pre-determined based on the spending policy of the EFIB, as approved by the State Board of Land Commissioners. The Idaho Legislature passed Senate Bill (SB) 1194 for Fiscal Year 2006 distributions. There were no distributions of the Capitol Permanent Fund in fiscal year 2006. In Fiscal Year 2005 financial statements, there were two funds with a negative Earnings Reserve Fund Balance: Agricultural College and Charitable Institutions. In conjunction with SB 1194, these funds received transfers from the General Fund on July 1, 2005, in the amount of \$4,600,000 to return them to a positive balance: \$2,130,000 to Agricultural College Earnings Reserve Fund; and \$2,470,000 to Charitable Institutions Earnings Reserve Fund.

Revenues reflect all receipts generated by the endowment and the income from investments. During fiscal year 2006, land revenues increased by 19.7%. During the same period, income from investments increased 13.2%.

Total expenses reflect distribution to beneficiaries as well as expenses paid. The distribution to beneficiaries of \$40,342,900 reflects distributions to beneficiaries during the fiscal year, which represented a 7.9% increase from fiscal year 2005. The distribution for expenses reflects the expenses paid by the EFIB to 1) the Department of Lands for its expenses associated with the management of the lands; and 2) the EFIB, for the management of the investments of the Fund. Distributions for the Department of Lands expenses decreased by \$1.5 million.

#### FACTORS THAT MAY AFFECT FINANCIAL POSITION

Each Endowment Fund is distinct in that it has a permanent corpus and an Earnings Reserve Fund. The permanent corpus is to remain intact while the Earnings Reserve Fund is used as an operating account to receive endowment, revenue and income as well as pay distributions to beneficiaries and expenses. It is also affected by market gains and losses of the Fund.

Under the legislation passed by the 1998 Idaho Legislature, an Earnings Reserve Fund was established to pay all expenses of the EFIB and the Department of Lands (Lands) and distributions to beneficiaries. Lands receipts are additions to the Earnings Reserve Fund while Lands and EFIB expenses as well as distributions to beneficiaries are depletions. Each June 30, the proportionate change in market value is allocated to the Permanent Fund and the Earnings Reserve Fund as instructed in *Idaho Code 57-720*.

On July 1, 2004, the Capitol Permanent Fund was pooled with the other endowment funds for investment purposes. Unlike the other beneficiary accounts, it does not have an Earnings Reserve Fund. Additions to that fund include Lands revenue as well as investment income. The EFIB authorizes distributions from the fund to the Capitol Commission, effective July 1 of each fiscal year. No distribution was made in FY 2006 but a distribution of \$413,132 was authorized by the EFIB for FY 2007.

For endowments other than the Capitol Permanent Fund, the Board of Land Commissioners has approved the following distributions to beneficiaries for FY 2007. House Bill (HB) 797, from the FY 2006 legislative session, appropriated the amounts approved by the Board of Land Commissioners. The FY 2008 approved distributions have not yet been appropriated and will be considered by the legislature in its 2007 session.

House Bill (HB) 797 details the FY 2007 distributions to the beneficiaries:

## STATE OF IDAHO ENDOWMENT FUNDS ADMINISTERED BY THE ENDOWMENT FUND INVESTMENT BOARD NOTES TO FINANCIAL STATEMENTS

**JUNE 30, 2006** 

#### NOTE 1 - GENERAL DESCRIPTION OF THE FUNDS

Accounts Under Jurisdiction of the Endowment Fund Investment Board

The Endowment Fund Investment Board (the EFIB), is charged with the administration and investment of the Permanent Endowment and Earnings Reserve Funds of the State of Idaho (the State), comprised of the Public School Endowment Fund, the Pooled Endowment Funds (College of Agriculture, Charitable Institutions, Normal School, Penitentiary, School of Science, State Hospital South, University of Idaho), and the Capitol Permanent Fund held for the benefit of certain State of Idaho institutions. The State of Idaho Endowment Funds (the Endowment Funds) are considered part of the State of Idaho financial reporting entity and are included in the State of Idaho Comprehensive Annual Financial Report (CAFR). The Endowment Funds are invested under the variable spending policy established by the EFIB.

The EFIB has no jurisdiction over assets held by the Department of Lands (Lands) or other agencies; therefore, the EFIB gives accounting recognition only when a transaction related to Endowment land assets has been consummated by Lands.

The EFIB employs investment managers for management of the Endowment Funds.

Endowment Funds Investment Reform Legislation

On July 1, 2000, the EFIB significantly changed operations and reporting of the Endowment Funds, under legislation enacted by the Idaho Legislature in 1998.

The legislation provides that:

- (1) The EFIB, as trustees, will control, manage and invest Permanent Endowment Funds according to policies established by the State Board of Land Commissioners.
- (2) The application of the Uniform Prudent Investor Act replaces the previous, more restrictive, investment criteria.
- (3) An Earnings Reserve Fund is established to create a buffer to preserve the Permanent Endowment balances.
- (4) Administrative costs are paid from earnings of the Endowment Funds instead of from annual General Fund appropriations.
- (5) Distributions to beneficiaries are to be paid from the Earnings Reserve Funds, which includes investment earnings, net capital gains and receipts from the Department of Lands.

#### **NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES**

#### Financial Reporting Entity

The EFIB follows Governmental Accounting Standards Board (GASB) Statement No. 39 in determining the reporting entity. Accordingly, the financial statements include all funds for which the EFIB is financially accountable.

The EFIB is part of the State of Idaho reporting entity based on certain criteria in GASB Statement No. 14. These statements present only the funds of the EFIB and are not intended to present the financial position and results of operations of State of Idaho in conformity with generally accepted accounting principles in the United States of America.

#### Basis of Presentation

The EFIB is accounted for and reported as a Permanent Fund as defined by GASB Statement No. 34 and uses the modified accrual basis of accounting. Under this method, revenues are recognized when they are earned, and expenses are recognized when they are incurred. The statement of net assets and the statement of activities display information about the EFIB. These statements include the financial activity of the overall reporting entity. These statements report all activities of the EFIB as a governmental type activity. Given the type of assets and liabilities held by EFIB, there are no adjustments required to convert from modified accrual basis to full accrual basis as required by GASB 34.

#### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Investments

The EFIB is authorized to invest the Endowment Funds in certain fixed income and equity investments as defined by the policy of the EFIB and consistent with Section 57-723 of the <u>Idaho Code</u>. This section states in part, "The EFIB and its investment manager(s) or custodian(s) shall be governed by the Idaho Uniform Prudent Investor act (Chapter 5, Title 68, <u>Idaho Code</u>), and shall invest and manage the assets of the respective trusts in accordance with that act and the Idaho constitution." In accordance with this code section and the variable spending policy, the Endowment Funds may be invested in equities (60% to 80% of the investment portfolio with a current target of 70%) and fixed income (25% to 35% of the investment portfolio, with a current target of 30%).

The following is a list of allowed investments by asset class:

- (1) Domestic equities
- (2) International equities
- (3) Fixed income securities including U.S. Government agency securities, domestic corporate bonds, notes, debentures, or convertible debt securities with a minimum "BBB" rating by Standard & Poor's or a "Baa" rating by Moody's (or equivalent ratings by other national rating services). Yankee bonds with a minimum "A" rating, commercial paper, equity-linked debt with a minimum rating of "A", pass-through mortgage-backed securities with a minimum "AAA" rating or equivalent, and collateralized mortgage obligations. Investment securities at June 30, 2006, are registered in the EFIB's name and are in compliance with EFIB policy and the <u>Idaho Code</u>.

Investment securities are stated at fair value in accordance with GASB No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools. The fair value of investment securities is based on published market prices and quotations from major investment brokers when available. Purchase and sale transactions are recorded on the trade date.

The EFIB is also allowed to write derivative instruments, specifically covered call options. Premiums received from the sale of these options are recorded as a realized gain and increase the principal balance of the investments. If the options are exercised, the gain or loss is recorded as if the security had been sold in a normal transaction. No options were outstanding as of June 30, 2006.

The EFIB periodically invests in forward and futures contracts representing agreements to buy or sell a specified amount of an underlying security at a given delivery or maturity date for an agreed-upon price. The EFIB's use of these securities is limited to small positions in the EFIB's international and domestic equity portfolios established primarily for hedging or rebalancing. The portfolio at June 30, 2006 held 153 ten-year treasury contracts with fair value of \$16 million, and 1 S&P 500 contract with fair value of \$319,850. The mark-to-market receivable as of that date was \$71,628, which was received on July 1, 2006.

As of June 30, 2006, the EFIB held forward currency contracts representing agreements to buy or sell U.S. dollars, Euros, British pounds, Japanese yen, Swiss francs, Danish krone, Hong Kong dollars, Norwegian krone, and Swedish krona upon established future dates for agreed-upon prices. These forward currency contracts held by the EFIB allow it to lock in future foreign exchange rates, thus reducing the risk stemming from currency fluctuations. As of June 30, 2006, the fair values of the obligations under the purchase side of these forward contracts amounted to \$16.4 million and the fair values of the obligations under the sale side of these forward contracts amounted to \$16.4 million.

The Joint Powers Investment Pool was established as a cooperative endeavor to enable public entities of the State of Idaho to aggregate funds for investment. This pooling is intended to improve administrative efficiency and increase investment yield. The Local Government Investment Pool is managed by the State of Idaho Treasurer's office. The funds of the pool are invested in certificates of deposit, repurchase agreements, and U.S. government securities. The certificates of deposit are federally insured. The U.S. government securities and the collateral for the repurchase agreements are held in trust by a safekeeping bank.

An annual audit of Joint Powers Investment Pool is conducted by the State Legislative Auditors Office. The Legislative Auditor of the State of Idaho has full access to the records of the Pool.

#### Income from Investments

Investment income is recognized when earned. Income from investments is allocated and distributed to each fund participating in the investment pool in the same ratio that each fund's average daily balance bears to the total daily balance of all participants' funds. Income from investments is recorded on an accrual basis.

Gains and Losses on Sale of Investments

The EFIB accounts for gains or losses on the sale of investments, in accordance with Section 57-724 of the <u>Idaho</u> Code.

Unrealized gains and losses to Permanent Endowment Funds are determined by comparing the current market value of the Permanent Endowment Funds as of the end of the fiscal year, excluding funds transferred to the Permanent Endowment Funds from the Earnings Reserve Fund or funds deposited as a result of land sales or mineral royalties, to the market value of the Permanent Endowment Fund at the end of the prior fiscal year.

Realized gains or losses on sale or maturity of investments are computed using the difference between actual proceeds received and the costs of investments.

Losses to the Public School Permanent Endowment Fund are made up as follows:

(1) The State Board of Land Commissioners may transfer any funds in the Public School Earnings Reserve Fund that they determine will not be needed for administrative costs or scheduled distributions to the public schools in the following fiscal year to the Public School Permanent Endowment Fund, to make up for any prior losses in value.

If funds transferred from the Earnings Reserve Fund are insufficient to make up any losses in value to the Public School Permanent Endowment Fund, the remaining loss shall be made up, within ten years, by legislative transfer or appropriation. If subsequent gains, as determined pursuant to the statute, or transfers from the Earnings Reserve Fund, make up for any remaining loss before this ten year period expires, then no legislative transfer or appropriation shall be necessary. At June 30, 2006, the cumulative losses of the Public School Endowment Fund were made up and a cumulative gain of \$16.5 million was in place.

Losses to Permanent Endowment Funds other than the Public School Permanent Endowment Fund shall be made up from Earnings Reserve Fund monies that the State Board of Land commissioners determines will not be needed for administrative costs or scheduled distributions to each endowments respective fund.

#### Distributions to Beneficiaries

Distributions to the public school and pooled beneficiaries are made in equal installments each month on the 10th (or first business day thereafter).

#### Expendable and Nonexpendable Net Assets

Net assets of the earnings reserve are expendable net assets of the EFIB. These expendable net assets are used for distributions to beneficiaries and distributions for expenses of the EFIB and the State of Idaho Department of Lands. Permanent net assets are nonexpendable.

#### Other

Investments have risks that the other parties to securities transactions do not fulfill their contractual obligations. The EFIB attempts to minimize such risks by diversifying portfolio investments, monitoring investment grade and quality, and purchasing only high-grade or government-backed securities as prescribed by the <u>Idaho Code</u>.

The EFIB does not intend to use market timing as an investment policy. However, the investment policy provides the flexibility for tactical asset allocation using capitalizations, investment styles, sectors, and other factors.

In accordance with section 57-722 of the <u>Idaho Code</u>, the EFIB engages in securities lending activities, whereby certain securities (U.S. Government securities and government issues as well as equities) are loaned to specific entities. The securities borrower will pay a stated premium to the EFIB that is remitted monthly. At the time the securities are loaned, cash or other collateral is received by the EFIB. Securities lending collateral is comprised of certain U.S. Government issued or U.S. Government agency securities, and is received valued at a required margin of 102% of the market value of the securities loaned. The securities lending agreement requires daily monitoring of the market value of the securities loaned and collateral received with additional collateral obtained as necessary to meet margin requirements.

The EFIB is indemnified for fraudulent or negligent acts performed by Northern Trust Company (the Trustees), and should loaned securities not be returned as specified, the Trustees would be required to make the EFIB whole. As such, credit risk exposure is limited under these transactions.

#### **NOTE 3 - INVESTMENTS**

CUSTODIAL CREDIT RISK - The EFIB minimizes exposure to custodial credit risk by requiring that investments, to the extent possible, be clearly marked as to EFIB ownership and further to the extent possible, be held in the EFIB's name. At June 30, 2006, all of the EFIB's investments were insured or registered investments, or investments held by the EFIB or their agent in the EFIB's name.

The State Treasurer is the custodian of the investments of the Public School Endowment Fund. All investments, including Pooled Funds and Capitol Permanent Fund are held under a safekeeping agreement with the Trust Department of the Northern Trust Company.

CONCENTRATION OF CREDIT RISK – The EFIB minimizes exposure to concentration of credit risk by requiring investment managers to provide EFIB with expected concentration of credit risk exposures in their portfolio guidelines. As of June 30, 2005, the EFIB did not hold any credit positions exceeding 5% of the total portfolio.

INVESTMENT AND CREDIT RISK – GASB No. 40 requires governments to provide information about the credit risk associated with their investments by disclosing the credit quality ratings of investments in debt securities as described by nationally recognized statistical rating organizations.

The EFIB Investment Policy Statement permits investment in the following types of fixed income securities:

<u>Cash Equivalents:</u> Treasury bills, money market funds, SIF funds, commercial paper, banker's acceptances, repurchase agreements, certificates of deposit.

<u>Fixed Income</u>: U.S. government and agency securities, corporate notes and bonds, mortgage backed bonds, preferred stocks, fixed income securities of foreign governments and corporations, planned amortization class collateralized mortgage obligations, or other "early tranche" CMO's asset backed securities.

Restricted investments include interest-only (IO), principal-only (PO), residual tranche CMOs, and purchase of securities on margin and short-sale transactions.

The EFIB Investment Policy Statement further provides the following guidelines for fixed income and cash equivalent investments:

- EFIB assets are to be invested only in investment grade bonds rated BBB (or equivalent) or better.
- EFIB assets may be invested only in commercial paper rated A1 (or equivalent) or better.
- The fixed income weighted average portfolio maturity may not exceed that of the Lehman Aggregate Index by more than .5 years.
- Money market funds selected shall contain securities that credit rating at the absolute minimum would be rated investment grade by Standard and Poor's, and/or Moody's.

As of the fiscal year-end, the EFIB's fixed income investments had the following characteristics:

	Fair Value	Modified Duration	Average Rating		
Fund Investments	 				
Northern Lehman Aggregate Index Fund	\$ 231,738,547	4.79 years	AA1/AA2

Northern Money Market Fund	7,162,950	Not Applicable	A1/A1+		
Total Fund Investments	\$ 267,264,841				

FOREIGN CURRENCY RISKS – The EFIB's Investment Policy Statement permits investing up to 20% of total investments in international equities. No foreign fixed income securities are permitted except currency. The EFIB's exposure to foreign currency risk is as follows:

Investment	Currency	Fair Value
Common Stock		
Australia	AUD	\$ 5,978,079

One of EFIB's International Equity managers has authority to enter into foreign currency transactions to hedge a portion of their portfolio, but did not have any hedges in place as of June 30, 2006. However, at fiscal year-end, there were pending foreign exchange transactions, all of which were used to support trading activity. Outstanding contracts are as follows:

<sup>(1)</sup> The fair value of pending foreign exchange transactions bought and sold are determined by the EFIB custodian.

#### **NOTE 4 – SECURITIES LENDING**

EFIB policies permit lending its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. The Northern Trust Company, EFIB's custodian, lends securities of the type on loan at year-end for collateral in the form of cash, irrevocable letters of credit or other securities with at least 102% of the lent securities' fair value, and international securities for collateral worth at least 105%.

At year-end, EFIB had no credit risk exposure to borrowers because the amount EFIB owes to the borrowers exceeds the amounts the borrowers owe to EFIB. The contract with EFIB's custodian requires it to indemnify EFIB if the borrowers fail to return the securities (and if the collateral is inadequate to replace the securities lent) or fail to pay EFIB for income distributions by the securities issuers while the securities are out on loan. All securities loans can be terminated on demand by either EFIB or the borrower, although the average term of the loans is one week. Cash collateral is invested in the lending agent's short-term investment pool, which at year-end, has a weighted average maturity of 72 days.

The relationship between the maturities of the investment pool and EFIB's loans is affected by the maturities of the securities loans made by other entities that use the agent's pool, which EFIB cannot determine. EFIB cannot pledge or sell collateral securities without borrower default.

	Outstanding Loans as of June 30, 2006

#### **NOTE 5- INVESTMENT INCOME**

Investment income is recognized when earned. All income from investments is distributed to the Earnings Reserve Funds in accordance with Sections 57-723A and 57-724A of the <u>Idaho Code</u>. Income from investments is allocated and distributed to each fund participating in the investment pool in the same ratio that each fund's average daily balance bears to the total daily balance of all participants' funds. Income from investments is recorded on an accrual basis.

#### NOTE 6 - CONTRIBUTIONS FROM THE STATE OF IDAHO

Effective July 1, 2005, \$2,130,000 was contributed from the State of Idaho General Fund to the Agricultural College Earnings Reserve Fund and \$2,470,000 was contributed from the State of Idaho General Fund to the Charitable Institutions Earnings Reserve Fund. The purpose of the contributions was to reallocate Endowment and General Fund support to hold all beneficiaries harmless.

#### **NOTE 7 - EXPENSES**

Expenses of the EFIB are paid from the Earnings Reserve Funds and by the State Insurance Fund. The State Insurance Fund portion is paid under an investment management contract. The portion paid by the State Insurance Fund is not considered an expenditure of the Endowment Funds and is therefore not included as expenditures or as reimbursements in these financial statements. Total expenses for fiscal year 2006 were \$143,964 for the State Insurance Fund.

#### **NOTE 8 – DISTRIBUTIONS**

Pursuant to Section 66-1106 of the <u>Idaho Code</u>, Charitable Institutions' Fund income is distributed as follows: Idaho State University Fund—four-fifteenths (4/15), State Juvenile Corrections Institutions Fund—four-fifteenths (4/15), State Hospital North Fund—four-fifteenths (4/15), Veteran's Home—Five-thirtieths (5/30), and School for the Deaf and Blind Fund—one-thirtieth (1/30). Distributions to these sharing institutions at June 30, 2006:

#### NOTE 9 – CREDIT ENHANCEMENT PROGRAM FOR SCHOOL DISTRICT BONDS

On July 1, 2002, the credit enhancement program for school district bonds became effective. This program, in accordance with Section 57-782 of the <u>Idaho Code</u> and in conjunction with Chapter 53, Title 33 of the <u>Idaho Code</u>, requires the Public School Endowment Fund to purchase notes of the State of Idaho that are issued to avoid a default in a voter approved bond issued by a school district. This program results in a higher credit rating for the qualifying school districts and through lower interest costs, will save the school districts in the program thousands of dollars throughout the life of the bond issue. As of June 30, 2006, the EFIB had not been required to purchase any notes and was not aware of any purchase commitments.

#### **NOTE 10 – BUDGETARY COMPARISON**

Budgets are adopted on a cash basis for the Endowment Funds. The budget for administrative expenses (personnel, operating and capital outlay) in the Earnings Reserve Funds is approved by the legislature on an annual basis. Expenses for consulting fees, bank custodial fees, and portfolio-related external costs are continually appropriated by the Idaho Legislature. The EFIB is not required by law to adopt or publish an overall budget for operations.

#### **NOTE 11 – SUBSEQUENT EVENT**

For Fiscal Year 2007, the Idaho State Legislature eliminated the Scaling Forest Products and Timber Road Maintenance dedicated accounts. All fund balances and spending authority associated with those accounts, as well as the balance in the Hazardous Materials dedicated fund associated with endowment lands, were transferred to the Endowment Fund's Earnings Reserve. An estimated \$8,000,000 of fund balances is expected to be transferred subsequent to June 30, 2006. Of this amount \$6,469,439 was transferred on August 16, 2006.

On July 1, 2006, the EFIB transferred \$413,132 from the Capitol Permanent Fund to the Capitol Commission.

For endowments other than the Capitol Permanent Fund, on August 8, 2006, the Board of Land Commissioners approved the following distributions to beneficiaries for FY 2008. The FY 2008 approved distributions have not yet been appropriated by the legislature and will be considered by the legislature in its 2007 session.

## INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Investment Board
State of Idaho Endowment Funds
Administered by the Endowment Fund
Investment Board
Boise, Idaho

We have audited the accompanying financial statements of the State of Idaho Endowment Funds administered by the Endowment Fund Investment Board (the EFIB), as of and for the year ended June 30, 2006, and have issued our report thereon dated August 4, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the EFIB's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operations that we consider to be material weaknesses. However, we noted a matter involving the internal control over financial reporting that we have reported to management of State of Idaho Endowment Funds in a separate letter dated August 4, 2006.

#### Compliance

As part of obtaining reasonable assurance about whether the EFIB's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

PEOPLE. PRINCIPLES. POSSIBILITIES.

This report is intended solely for the information and use of the Legislature of the State of Idaho, the EFIB, the State Land Board, management of EFIB and is not intended to be and should not be used by anyone other than these specified parties.

## STATE OF IDAHO ENDOWMENT FUNDS ADMINISTERED BY THE ENDOWMENT FUND INVESTMENT BOARD

**EXAMINATION OF MANAGEMENT'S ASSERTIONS** 

#### INDEPENDENT AUDITORS' REPORT ON EXAMINATION OF MANAGEMENT'S ASSERTIONS

Investment Board
State of Idaho Endowment Funds
Administered by the Endowment
Fund Investment Board
Boise, Idaho

We have examined management's assertions about the State of Idaho Endowment Funds' (the Endowment Fund) compliance with certain requirements of the <u>Idaho Code</u>, Chapter 7, Investment of Permanent Endowment Funds, and of the State of Idaho Endowment Fund Variable Spending Policy, during the year ended June 30, 2006, included in the accompanying Statement of Management's Assertions. Management is responsible for the Endowment Fund's compliance with these requirements. Our responsibility is to express an opinion on management's assertions about the Endowment Fund's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining on a test basis, evidence about the Endowment Fund's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination of the Endowment Fund's compliance with specified requirements.

In our opinion, management's assertions that the Endowment Fund complied with the aforementioned requirements for the year ended June 30, 2006, are fairly stated, in all material respects.

This report is intended for the information and use of the Legislature of the State of Idaho, the State Land Board, and the EFIB and is not intended and should not be used by anyone other than these specified parties.

# STATE OF IDAHO ENDOWMENT FUNDS ADMINISTERED BY THE ENDOWMENT FUND INVESTMENT BOARD STATEMENT OF MANAGEMENT'S ASSERTIONS YEAR ENDED JUNE 30, 2006

Investment securities held at June 30, 2006, were in compliance with Chapter 7, Title 57, of the <u>Idaho Code</u> (the Code), and with the State of Idaho Endowment Fund Investment Board Investment Policy Statement and the following control procedure was in place for the year ended June 30, 2006 to help ensure compliance with the Code and Policy:

• Investment managers provided reconciliations of their custodial data on a monthly basis.

The distribution of income from investments and the determination of net capital gains and losses were performed in accordance with Chapter 7, Title 57-724, of the Code.

The Investment Manager advised the Investment Board monthly as to the percentages of the various types of holdings in the Fund.

The Investment Board presented a summary report to the Land Board as required by Chapter 7, Title 57-725, of the Code.

The Investment Board has employed Eide Bailly, LLP an independent certified public accounting firm, to audit the books and records of the Endowment Fund for the year ended June 30, 2006, required by Chapter 7, Title 57-720, of the Code.
